EDUCATION

10th

Takshashila Public School
April 2016 - March 2017

12th

Takshashila Public School
April 2018 - March 2019

Computer Science Engineering

Galgotias University
December 2020 - May 2024

Web Development Course

Masai School
September 2024-present

TECHNICAL SKILLS

- JavaScript
- Git
- CSS3
- HTML5
- React
- Responsive Web Design
- Node.js
- Express.js

ACHIEVEMENTS

Achieved AIR 542 in Coding

Ninjas World Cup Contest

Coding Ninjas

Completing Masai School SDET(Full Stack development course)

Masai School

CERTIFICATIONS

Coding world cup

Coding Ninjas

Django Developer

O(1) coding club

Python programming

Maangler

PROFESSIONAL SUMMARY

Dynamic Frontend Developer with proficiency in React.js, JavaScript, and related technologies. Possesses strong collaboration and communication skills for effective teamwork. Excels in integrating AI and quickly learning new tech stacks. Skilled in responsive design, scalable code development, and optimizing performance.

PROJECTS

FaceBook Clone | |

JavaScript | HTML5 | CSS3 |

Responsive Web Design

- Developed the frontend of a Facebook-like social networking platform using React.js, ensuring a dynamic and responsive user interface.
- Worked individually on HTML5 and CSS3 for creating aesthetically pleasing and mobile-friendly designs.
- Engaged in best practices for state management in React to handle application data efficiently.
- Optimized performance through code-splitting and lazy loading of components.
- Handled cross-browser compatibility for a seamless user experience.

File Management System | |

JavaScript | HTML5 | CSS3

- Created a file management application focusing on frontend development using React.js.
- Ensured a smooth user experience through responsive web design and mobile-friendly interfaces.
- Implemented React components and managed states for efficient data handling.
- Integrated user interfaces with backend services for seamless data management.
- Utilized Git for version control, facilitating a collaborative development workflow.
